ISTQB Agile certified | Katalon | E-Commerce | ERP | Insurance |
UiPath | Postman | QA Engineer at Miles IT
Mumbai, Maharashtra, India

Summary

I have more than four years of experience testing software in the
life insurance, ERP, and eCommerce domains. had a thorough
knowledge of the SDLC, STLC, Agile, and Waterfall techniques.
knowledge of testing techniques, including writing test cases,
running tests, and reporting bugs. knowledgeable about the SCRUM
and Kanban techniques, and I've tested both functional and non-
functional products. excelled in collaborative work and interaction,
took part in various testing, and actively supported process
development. thorough knowledge of STLC, excellent problem-
solving abilities, and TDD and BDD expertise. worked effectively in
an agile setting, produced results, and is knowledgeable in a range
of testing methodologies.

Experience

Miles IT
QA Engineer
April 2022 - Present (1 year 6 months)

QualityKiosk Technologies Pvt. Ltd.
Test Engineer
August 2019 - March 2022 (2 years 8 months)
Navi Mumbai, Maharashtra, India

I worked as a test engineer for QK and was assigned to Aegon Life Insurance
as a client. I worked on the following two big projects while at Aegon.
I have knowledge of life insurance principles, product types, and experience
testing new business and contract/policy servicing business processes that
are required. As a functional tester, I assisted with manual and technical level
testing of several products.

1.Future First Asia: It is an enhanced tool of the CSC. This application is for all
insurance-based industry verticals for their easy needs. The functionality of this

software is to maintain all company customer and product related details and to generate respective reports for the same.

Products: Term Plan, ULIP Plan, Endowment Plan, Pension Plan

Tools: Bugzilla, Jira

2. 2019-2020 IRDA Product Regulatory Changes:

Products: Term Plan, ULIP Plan, Endowment Plan

RethinkingWeb
Software Tester
July 2018 - June 2019 (1 year)
Mumbai, Maharashtra, India

I worked as software tester in rethinking Web and worked on below projects:

1. Proactive Tours and Travels: Proactive Travel is a B2C, B2B, B2B2B marketplace for international tours, hotels, flights, etc. The website connects buyers and sellers internationally.

Products: User Management, API Testing,

Tools: Asana, Excel, Jira

Environment: Windows 8, Chrome, Mozilla Firefox, Safari

2. Gurus of dance: Gurus of Dance is a dance studio management solution that offers features such as point of sale POS, scheduling, and financial reports.

Product: POS (Point of sale), Schedule model, CSV file.

Roles and Responsibility:

• Understanding and analyzing Software Requirements

• Develop test cases and prioritize testing activities.

• Execute all the test cases and report defects, define severity and priority for each defect.

• Carry out regression testing every time when changes are made to the code to fix defects.

Other Project: Budget Application, VOTW (Visas of The World), RTW (Rethinking Web), Enzi Application, LK Consultants.
